

PLANNING for REGISTRATION

Office of the Registrar

Reed College, Summer 2024

Do Your Research!

Read through the [Reed College Catalog](#) for course descriptions, major listings, and degree requirements.

Explore the [Schedule of Classes](#) for class meeting days/times, locations, and instructor(s).

Be sure to take online [placement tests](#) over the summer.

If you've taken AP or IB classes, you may find the [first-year student credit guide](#) helpful in determining how these credits may apply to your degree requirements.

Part 1

Tips for Completing the [Schedule Planner](#)

HUM 110 is required in your first year. Plan to take it with the same instructor in fall and spring.

Plan to take a course or courses that satisfy [Group Distribution Requirements](#).

Some majors require that you get started in that department right away. The [Advising Handbook](#) has sample schedules to assist with academic planning.

Part 2

More tips for Completing the [Schedule Planner](#)

Some courses have multiple components, such as lectures and labs. Keep track of these separate components/meeting times on your Schedule Planner.

Have second and third choice courses in mind in case classes fill. You can also add yourself to a waitlist.

Plan to take Physical Education classes - they are a degree requirement.

What's Next?!

You will receive an email on Monday, August 26 with your adviser's name and office location and your advising appointment time.

Attend the SOLAR Presentation during Orientation on Wednesday, August 28 to learn the nuts and bolts of registration online via SOLAR.
